11:43 AM EST • January 21, 2022

Intel eyes Ohio for a pair of chip factories amid global shortage

Brian Heater
10:54 AM EST • January 21, 2022

Intel this week highlighted plans to build two chip manufacturing facilities outside of Columbus, Ohio. The announcement is still early stages, involving the eventual allotment of \$20 billion to co...

Francisco Partners scoops up bulk of IBM's Watson Health unit

Ron Miller

10:00 AM EST • January 21, 2022

In what has to be considered an anticlimactic ending, IBM sold off the data assets of its Watson Health unit to private equity firm Francisco Partners today. The two firms did not share the purchas...

Israel's Entrée Capital raises \$300M for Israel-focused fund, Adi Gozes becomes partner

Mike Butcher

7:37 AM EST • January 21, 2022

The Israeli VC scene seems to be on a bit of a New Year roll. Hot on the heels of the news that Viola Ventures, an Israeli VC, has closed its sixth fund of \$250 million comes news from Entrée Capital...

ENTRÉE CAPITAL

Adi Gozes started her career with the 8200 unit of the Israel Defense Forces, serving as a Project Manager and Team Leader. She obtained her B.Sc. in Computer Science and MBA from Tel Aviv University. Adi has spent a decade in product management in startups. Most recently, Adi was an investor at Samsung Catalyst Fund.

Europe's top privacy regulator calls for ban on political microtargeting

Natasha Lomas

6:58 AM EST • January 21, 2022

The European Union's chief privacy and data protection regulator has urged EU policymakers to strengthen proposed 'transparency' rules for political ads — calling instead fo...

Zuper secures \$13M to take the sting out of home repairs

Christine Hall

5:00 AM EST • January 21, 2022

The company designed its product offerings to connect all of the moving pieces related to booking residential and commercial service work.

Dublin's Exergyn pulls in \$35M Series A for solution which replaces GHG-causing refrigerants

Mike Butcher

3:01 AM EST • January 21, 2022

Dublin-based Exergyn replaces refrigerants with solid materials, thus reducing the output of greenhouse gases. The technology could be applicable in data centers. The industrial-grade cleantech com...

Peloton CEO acknowledges corrective actions, denies 'halting all production' of bikes and treadmills

Brian Heater

8:14 PM EST • January 20, 2022

Ahead of the company's upcoming earnings, Peloton CEO John Foley took a break from a "quiet period" to address a number of reports related to poor device sales. The executive issued a denial that t...

Netflix had its lowest year of subscriber growth since 2015

Amanda Silberling

7:17 PM EST • January 20, 2022

Despite producing global hits like "Squid Game" in 2021, Netflix's fourth quarter returns show the streaming giant struggling to maintain a lead over its competitors. The company ...

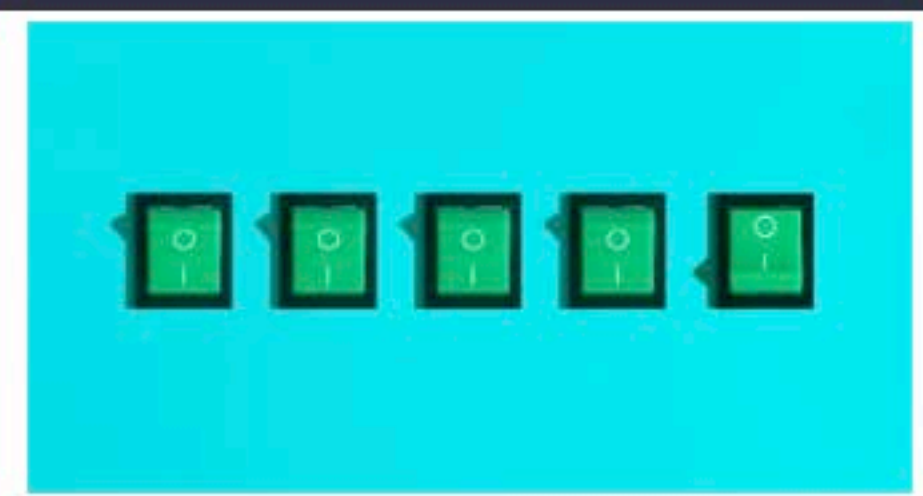

5 areas where VCs can play an outsized role in addressing climate change

Jamil Wyne, Abrar Chaudhury

7:13 PM EST • January 20, 2022

Many climate unicorns are on the way, but current VC levels are dwarfed by the mind-boggling funding amounts that are needed to give humanity a fighting chance.

Daily Crunch: Following 'significant reduction' in demand, Peloton puts brakes on production

Alex Wilhelm

6:19 PM EST • January 20, 2022

Hello friends and welcome to Daily Crunch, bringing you the most important startup, tech and venture capital news in a single package.

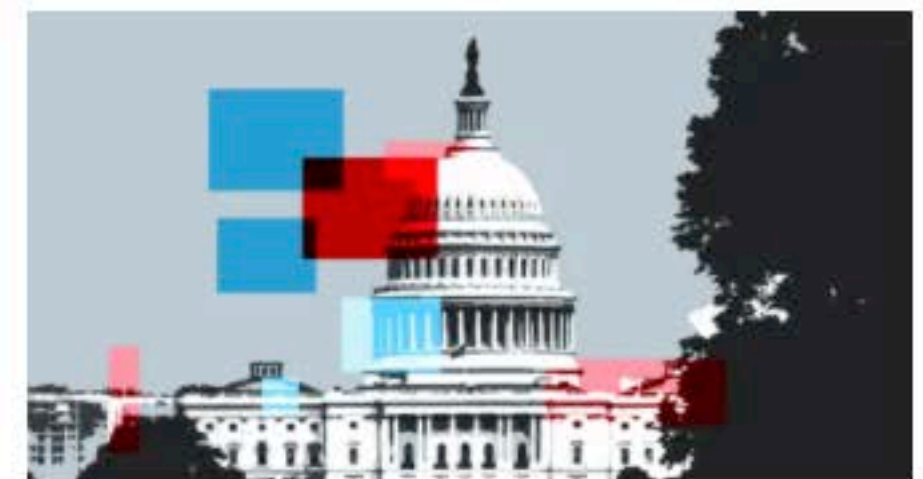

The first big tech antitrust bill lumbers toward reality

Taylor Hatmaker

6:14 PM EST • January 20, 2022

A major Senate bill that would prevent tech companies from giving preference to their own products and services just passed a significant hurdle in Congress, bringing it one step closer to becoming...
